SEE MORE. DO MORE.

ZEBRA UID LABELING SOLUTIONS

The visibility provided by UID enables the electronic capture of information about every component of even the most complex military systems throughout their entire life cycle, whether in deployment, transport, storage, or repair. The intelligent data made available to asset managers in this way can support all aspects of property use and maintenance, making knowledge-enabled logistics and reporting a reality.

Barcode labeling saves money

Even the DoD suggests that inexpensive barcode labeling is right for more than 80 percent of mandated items. Zebra's thermal transfer labeling solution is your easiest-to-use, lowest-cost UID marking alternative to expensive direct part marking, laser etching or data plates.

Zebra's UID solution in 1-2-3

1) Zebra *Xi*™ series thermal transfer printers are extremely durable and reliable for nonstop, mission-critical environments. Choose from a range of print widths, speeds and print resolution for printing everything from tiny electronic-component labels to wide-web pallet and drum labels.

   For UID labels on the go, use Zebra's easy-to-carry P4T™/RP4T™, the first mobile thermal transfer printer with RFID printing/encoding capabilities.

2) Genuine Zebra™ supplies have been independently tested to ensure compliance with the DoD's requirements for UID labeling under MIL-STD-130, MIL-STD-129, and MIL-PRF-61002A. Zebra's synthetic label materials will provide lifetime identification even for items exposed to challenging, hazardous environments. Our labels won't fall off, dry up, wear off or curl up.

3) ZebraDesigner™ Pro label design software makes it easy to format new labels—or reformat your current product identification or shipping labels.

IT'S EASY TO FIND THE PERFECT PRINTER WITH THIS UID SOLUTION PRINTER SELECTOR GUIDE

Model	Maximum Print Width	Resolution (dots per inch)	UID	MIL-STD-130	MIL-STD-129	RFID
P4T/RP4T The world's first thermal transfer mobile printer with RFID printing/ encoding capabilities.	4 inches	203	X	X	X	X
110Xi4™ Zebra's flagship printer is extremely affordable for moderate- to large-size environments where a durable, high-output printer is mandatory.	4 inches	203 300 600	X	X	X	♦
140Xi4™ At 14 inches per second, one of the fastest printers that is both durable and reliable!	5 inches	203	X	X	X	
170Xi4™ High-end, compliance shipping labeling solution performs DoD, AIAG, ODETTE and UCC/EAN-128 labeling tasks both on demand and in batches.	6 inches	203 300	X	X	X	
220Xi4™ High-end, wide-web printing solution offers advanced printing for pallet, chemical-drum, banner-size, and other wide-label applications.	8 inches	203 300	X	X	X	
R110Xi4™ RFID printer/encoder Combines *Xi* performance with RFID flexibility, and precisely encodes small labels.	4 inches	203 300 600	X	X	X	X

♦ RFID Ready option is standard. To activate RFID encoding, an optional and field-installable radio module is required.

ZebraCare™ Service

Increase printer uptime, and reduce lost productivity and unbudgeted repair costs, by selecting a ZebraCare Depot service agreement. A cost-effective means of planning and budgeting your annual maintenance expenditures, your agreement ensures that trained Zebra technicians will bring your printer back to factory specifications. Zebra offers a variety of plans to fit your budget and business needs.
